## RED DEER PLANS BUILDING NEW HOSPITAL WING

Tenders for building the new wing to be added to the Red Deer Municipal hospital will be called for early this month, according to a report following a recent meeting of the hospital board. Chairman M. L. Gordon presided at the meeting and present were Ald. P. W. Johnson, C. H. Best and Secretary J. M. Findlay.

Specifications for the new wing are being prepared, W. H. Blake, of Edmonton, acting as the board's architect. Plumbing, heating and electrical tenders will be awarded separately. Redcliffe hard facing brick will be used for the building.

The board's estimates for 1939 have been approved by the minister of health. They provide for a total expenditure of \$247,100 and an income of \$23,160.

Protecting against the 60-cent wheat price the following wire has been sent to the federal government by the Red Deer board of trade:

"Red Deer board of trade fears consequences of sixty cent wheat price. Our average grain means operating at a loss. Better sustain the wheat with reasonable price than possibilities of relief later. We have been content for eighty cent price and feel that is minimum for the wheat to sustain its farming industry. Save this price of Canada while world markets adjust themselves."

History and objects of the organization known as Ducks Unlimited were revealed to a large crowd of Red Deer sportsmen at the Crescent theatre here recently. The talks were illustrated by two reels of pictures showing where and how the work of the organization is being carried on.

Construction is expected to start about April 10 on the rebuilding of Whyte Motors garage. R. M. Whyte, owner of the business, has announced plans which, when carried out, will give him one of the most modern garages in the province. The expenditure will run about \$10,000.

Construction is expected to start about April 10 on the rebuilding of Whyte Motors garage. R. M. Whyte, owner of the business, has announced plans which, when carried out, will give him one of the most modern garages in the province. The expenditure will run about \$10,000.

Construction is expected to start about April 10 on the rebuilding of Whyte Motors garage. R. M. Whyte, owner of the business, has announced plans which, when carried out, will give him one of the most modern garages in the province. The expenditure will run about \$10,000.

## Central Alberta Fiddlers' Contest Stated April 10

Entries are already pouring in for the central Alberta old-time fiddlers' contest, to be held here Monday evening, April 10, in the central Alberta pavilion. This event has drawn capacity crowds to the pavilion for many years to hear fiddlers from all over Alberta in a grand revival of old-time tunes in their efforts to carry off the silver cups awarded by Mr. A. T. Isbister.

The event is sponsored by St. Cyril's church men's club. J. B. MacDonald, of Lacombe, is the present old-time champion and Leonard MacDonald of Clondalton, A. B., is the young-champ cup holder. A Junior cup has been added to the awards this year.

A concert arranged by the choir of St. Andrew's United church in raise funds was well attended recently. The men's choir's choir, The All Saints Chorus, Edmonton, under the direction of choirmaster Vernon Barford presented a program of sacred and secular hymns.

Spring building activity is flourishing here. J. Jardine, formerly of Red Deer, is constructing a store at a cost of about \$40,000, while M. M. Stevenson of Edmonton has prepared plans for a tourist centre and gasoline distributing agency at about \$10,000.

On Saturday afternoon April 1, a protest meeting for some 300 farmers was held in the Pekin theatre. Mr. Eric Brown was appointed chairman of the meeting and outlined the object of calling the meeting in answer to the government's 60-cent wheat price for the 1939 crop.

Y. Parniak of Halkirk, was the main speaker, and outlined a plan of action, and urged the farmers to stand together. A committee of three were appointed to draft a strong protest resolution to be sent to the federal government. The committee consisted of M. J. Brannan, C. F. Pals and J. M. J. Fleet.

It was unanimously agreed at the meeting that the 80 cent price was favored. The action taken by the government has been the means of many farmers cancelling orders for farm machinery which has been a severe blow to implement agents in Custer.

Power plant went out, too. Burke explained as they finally reached the top, panting and angry. "We'll have it back in stage soon. Get the electricians on it."

"Get a flock of sheep in the office," Eric ordered. "Keep them away from the wall and the ceiling. They get hot and we don't want a fire. Get down and hurry. The men are here. The injured men are here. He nodded toward the office."

A few workmen were standing near the closed door. They stepped back, quickly, opening a path for Eric. Alan and the others made it to the dim light. Alan saw the pro forma were moaning, a couple were crying, and in one corner a youngster, hardly more than a boy, was crying softly.

"Weaver, you see that every injured man has anti-tetanus," Farrell commanded, taking charge. "We'll have it back in stage soon. Get the electricians on it."

## BONNYVILLE TRADE BOARD REORGANIZED

In an effort to reorganize the Bonnyville Chamber of Commerce, a well-attended meeting of local businessmen and prominent farmers was held here recently. J. M. Dechene presided.

The following executive was elected: H. Turcotte, president; J. O. Binette, vice-president; G. Gauthier, secretary-treasurer. C. Fender, J. M. Dechene, R. Lapointe, A. Dargis, J. N. Vallee, W. A. Paquette, Rev. Father J. E. Lapointe, J. O. Nobert, A. Mark, J. E. Demers, R. Laforme, A. Limoges and C. B. Moreau were named as directors. It was decided to apply for a charter and to affiliate with the provincial association.

The first project to be sponsored by the organization will be the proper drainage of Lake Lake by connecting it with Muriel and Moose lakes, two large bodies of fresh water. The project will cost an estimated \$25,000, and is to be proposed as a dominion-provincial relief project. The village of Bonnyville stands on the shores of Lake Lake and its stagnant condition is a threat to health.

Bonnyville's greatest resident, Joseph Leppage, gladly celebrated his birthday on Monday, March 27, by having a few of his friends and relatives, including children, grandchildren and great-grandchildren over a spot of tea at the home of his daughter, Mrs. J. Maronik. Mr. Leppage, an ambitious young country doctor.

The Inquiring  
Reporter

Some like 'em up and some like  
'em down. Some like 'em hanging  
in acroftion folds and others  
seem to prefer 'em neatly rolled.  
That's how the men of Edmonton  
wear their socks and each  
male seems to think that his idea  
of how socks should be worn is  
the best. Very few have any  
suit the ladies of the city as to  
how they would like their men to  
wear their brightly hued socks.  
The Bulletin's Inquiring Reporter  
took it on himself to quiz a few  
of the feminine members of the  
community on the question.

The replies follow:

**MRS. W. WHITE, housewife:** I  
don't make much difference to  
me how the men wear their socks.  
I never notice them myself. They  
should exercise a reasonable  
amount of care and I think that  
most women would like to see  
men's socks well-suspended and  
kept free of unattractive folds.

**DOTTIE WILLIAMS, business girl:**  
I wouldn't go so far as to say  
I wore his socks down over the  
pavement. I think the habit of  
wearing socks without garters  
is a nasty thoroughbred from the  
old legislature era. It is not  
my place. Give me a man with  
socks that stay up.

**BERTHA MARCUS, student:** That's  
something that never bothers me.  
They can wear them any way  
they like. No, I won't say any  
more.

**ELSIE McLEOD, waitress:** I think  
most men wear their socks all  
right. Now and then you do see  
an old man sitting with his socks  
hanging and for those males who  
don't like garters I recommend  
the bulletin garter type that  
never suspends.

**Additional Bans  
Are Imposed On  
South Highways**

Two additional road bans were  
announced on Tuesday by the  
provincial public works department.  
Officials stated that the bans  
on Tuesday, half loadings only  
would be permitted until further  
notice on the Lejac-Highway  
Springs and the Macleod-Waterloo  
highway.

It was also announced that  
from the ban on the north road, Edmon-  
ton-Althabasca and beyond, there  
would be an exception in that light  
delivery and parcel delivery trucks  
be permitted to pass over the high-  
way.

Strong language tainted the air  
on a city street when two men met  
on the sidewalk, but what happened  
afterwards was a different matter.  
The men charged the other with

It was another of those name-  
calling and pushing-around  
affairs that never amount to much,  
decided the court, and the case was

was formerly employed completed the list.

Western Farmers  
Being Exploited  
Declares Telford

Criminal inefficiency and dishonesty in the adminis-  
tration of public affairs combined with mass stupidity on the  
part of the people of Canada were named as the underlying  
causes of discontent and maladjustments in Canada today  
by Dr. Lytle Telford, Mayor of Vancouver, and C.C.F. mem-  
ber for the legislative assembly of British Columbia, in an  
address at the Masonic Temple here Monday night.

Charging that the Canadian peo-  
ple were being taken for a ride  
by the politicians he stated that a  
drastic, fundamental, economic  
change was a necessary prelude to  
any improvement in national af-  
fairs. He offered public ownership  
of public utilities and a back  
to the land movement of the un-  
employed as steps toward the  
utopia all people await.

He said the 200 people who had  
gathered under the auspices of the  
Edmonton Central Council of C.C.F.  
Clubs to hear him speak, were  
the private grain traders are tak-  
ing the western farmer for a ride.  
He said if public ownership had  
failed in the past it was not be-  
cause of inherent weakness of  
the theory or practice of public own-  
ership, but because of the inter-  
ference of private interests in public  
business.

A resolution was forwarded to  
the federal government for the  
appropriation of \$300,000 for the  
purpose of repatriating the  
trader, council, who stated that in  
addition to providing the hard-  
core could be taken to the  
employment of hundreds of young  
men. The demand for the repatri-  
ation of the farmer was the  
financial benefit from the increase  
in tourist traffic.

The new Mines Act passed this  
session by the provincial govern-  
ment, was a step toward the  
repatriation of the farmer. The  
act, Dr. Telford stated, was a  
very backward step in the industry.  
The demand for the repatriation  
of the farmer was the financial  
benefit from the increase in  
tourist traffic.
